- curricula teaching methods
- Educational technology

HOBBIES

- Writing
- Voice acting
- Photography
- Design

SUMMARY

I have been working in the media field since 2016, and during these years I learned everything related to social media and its platforms, in addition to my studies in marketing, artistic direction and business development. I am a digital content creator with the technique of storytelling in the name of the Hakawi Aunt Wadad program. I have become a storytelling trainer and I am still developing my skills in every field that serves my work in the media in general and in storytelling in particular. I aspire to be among your ranks to develop, learn and benefit.
